

RACED FOR VACANT LANDS

Scramble For First Place at Yorkton Land Office

Yorkton, Sask., June 3.—This afternoon the police in charge of the crowd before the land office would not permit of a line up forming until five o'clock. By that time the crowd of considerably over a hundred anxious land seekers who had gathered at a big meeting at Carnegie hall tonight, held under the auspices of the municipal council of the United Irish League of America. The meeting was called to commemorate the anniversary of the death of Michael Davitt and resolutions were passed lauding his life and efforts on behalf of Ireland. The declaration in support of the action of the Irish convention was then adopted.

Irish Politics in New York.
New York, June 3.—The action of the Irish convention at Dublin on May 2nd in disapproval of the Irish council bill, was unanimously endorsed at a big meeting at Carnegie hall tonight, held under the auspices of the municipal council of the United Irish League of America. The meeting was called to commemorate the anniversary of the death of Michael Davitt and resolutions were passed lauding his life and efforts on behalf of Ireland. The declaration in support of the action of the Irish convention was then adopted.

NANTON NAMES REPRESENTATIVE

Wants to Play Mine Superintendant Against Labor Leader.

Ottawa, June 3.—Mr. Nanton, manager of the Alberta-Alberta and Irrigation Co., has named W. J. L. Fardie, mine superintendent at Lethbridge, as his representative at the annual gathering of the American Anti-Tuberculosis league, which assembled here yesterday. Nearly three hundred delegates are attending the session, and the head of the mine organization as their member of the board he would withdraw from the mine. Fardie would nominate Mr. Fardie, Inspector of mines for British Columbia.

Longshoremen Revive Demands.
New York, June 3.—At a meeting today of representatives of the longshoremen's union the demands made a month or more ago on the steamship companies were revised, and the new list of demands was presented to the companies. Chairman Patrick Connors, of the executive committee of the union, stated that no further concessions would be made. He said that because of the increased cost of living it was impossible for the men to work for less than \$1.00 a day. He added that the union was in good condition, and could resist the strike for a long period, and that if the companies did not accept the new terms that the men would seek other employment. The steamship companies have been resisting their demands for a long time during the strike, although in many cases they have been sailing with light cargoes.

Accidentally Shot a Companion.
New York, June 3.—Morris J. C. Zamon, aged 18 years, today accidentally shot and killed a companion, Walter, aged 18, a member of a party of five New York youths, who were camping on the shore of Lake Ontario, near the city of Buffalo, N. Y. A bullet from Zamon's rifle, intended for a low-flying bird, pierced Walter's head.

**MR. CROCKETT'S POLITICAL
VIEW ON CROP PROSPECTS**

Vice President of C. P. R. Speaks of the Crop Conditions in the Three Provinces.

Winnipeg, June 3.—Second Vice-President Wm. Whittle, of the Canadian Pacific, returned to the city last night from Edmonton, where he conferred with the council in relation to the entry of the C. P. R. into the city. On the way west and again on the way back, he was accompanied by Mr. Whittle to conditions of the growing grain in the three provinces and the statement made on his return was optimistic in the highest degree.

The trip west through Manitoba was made during the night and no observations could be made. On the return trip, however, Manitoba was partially seen. It was secured to ascertain conditions at first hand. The wheat growing areas of the province of Alberta were journey being seen on the return.

Summary of Week's Bittings at Lethbridge Reveals Sharp Difference on Questions of Eight Hour Day and Compensation to Miners.

Lethbridge, Alta., June 1.—One week's session of the coal convention closed here today and the views of the miners and operators in the province have been very clearly placed before the commissioners. It can be said that, with the exception of the case of the three non-union miners, employed in the Galt mine, who were in entire accord with the conditions as they are at present, generally speaking the miners want an eight hour bank-to-bank law, and a workman's compensation act. The evidence shows that an eight hour law, not bank to bank, is in the hands of the miners at Lethbridge works practically on a ten hour basis. The miners claim that as much coal can be dug in eight hours as ten hours, and their argument is that an eight hour day is a man really does only eight hours work as his energy is fully exhausted at the end of eight hours. On the other hand operators of the experience of the miners at Lethbridge mine, maintain that the output of the mines has considerably decreased under an eight hour law, and the only way to increase the output is to give an eight hour day, necessitating considerable extra cost. The miners claim that the output of the mines has increased under an eight hour day, and the only way to increase the output is to give an eight hour day, necessitating considerable extra cost. The miners claim that the output of the mines has increased under an eight hour day, and the only way to increase the output is to give an eight hour day, necessitating considerable extra cost.

Licenses Were Recommended.
Atlantic City, N.J., June 3.—Until the national state authorities actively take up sanitary regulations of the great factories of the country, the checking of the ravages of consumption is a matter of impossibility, stated Dr. W. F. Frankhauser, of Reading, Pa., before the annual gathering of the American Anti-Tuberculosis league, which assembled here yesterday. Nearly three hundred delegates are attending the session, and the head of the mine organization as their member of the board he would withdraw from the mine. Fardie would nominate Mr. Fardie, Inspector of mines for British Columbia.

Lunch Capped.
New Haven Conn., June 3.—Four men were arrested here today for the capturing of a launch off Norfolk to the city of New Haven. The launch was brought in tonight by a tug, and is now in the New Haven police station.

May Complete Jury Today.
Bozeman, Idaho, June 3.—The work of obtaining a jury in the case of William D. Haywood, charged with the murder of Governor Steuneger, will be resumed tomorrow morning. The jury was selected last night, and the trial is expected to begin tomorrow.

Strathcona's Applications of the Commercial, Windsor and St. Louis were recommended.
The St. Elmo and Grand View in Edmonton will start advertising with the intention of the city to sell the license law. The Brunswick will be enlarged at once, the plans having been submitted and approved by the commissioners.

Prisoners Fry Lock From Cell Door And Get Away.
Portage La Prairie, June 3.—A daring escape was made from the local jail last evening when two prisoners, James and William, broke through the bars and escaped. The escape was accomplished by the use of a saw and a pickaxe.

Automobile Collision.
Paris, June 3.—Mrs. G. Steindler, of the city of Paris, was injured in an automobile collision in the Bois de Boulogne. Her husband was slightly hurt. A special jury was summoned to try the case.

Templeman to Do Honors.
Acting Minister of Marine and Fisheries to Welcome Fushimi.

Ottawa, June 4.—Hon. William Templeman, acting minister of marine and fisheries, will do the honors at the reception of the Japanese cruiser Fushimi at the harbor of Ottawa. The ship is expected to arrive tomorrow.

Calgary Wholesale Sold.
Calgary, June 3.—Wm. Greenough, of the city of Calgary, has sold his business to the city of Calgary. The sale was completed today.

Declared Out.
New York, June 3.—H. P. Whitman, of the city of New York, has been declared out of the city. He is expected to return tomorrow.

Lumber Advanced.
The lumber advances announced in a recent issue affecting particularly the prices of lumber and imported tan are, fir, spruce and pine. The advance on fir is \$2.00 per thousand feet.

Sentenced For Horse Stealing.
Constable Davies, of the R. N. W. M. of the city of Winnipeg, has been sentenced to the city jail for a period of six months for the charge of stealing a horse. The horse was worth \$100.

Weather.
Meteorological bureau, Edmonton, 3rd June, 1907.—Mean temperature for May 42.8, precipitation for May 1.5. Wind from the west, light to moderate.

Building Permits.
At the office of the building inspector this morning permits were taken out for the following buildings: A house in the city of Winnipeg, valued at \$10,000. A house in the city of Winnipeg, valued at \$10,000. A house in the city of Winnipeg, valued at \$10,000.

Fire Alarm Being Installed.
Work is now in progress in the installation of the fire alarm system in the city of Winnipeg. The system will be completed by the end of the month.

THE ARTIFICIAL GAS FRANCHISE WAS ENDORSED

Big Vote Cast Yesterday by the Ratepayers—Hospital Grant Also Endorsed—Natural Gas Franchise Rejected.

As a result of yesterday's election on the city bylaws the Artificial Gas company have been granted a franchise by a large majority. The Natural Gas company, however, was rejected. The hospital grant was also endorsed by a large vote.

The result is as follows:—
Bylaw No. 105, to raise \$50,000 as a loan of interest in the city of Winnipeg, passed by a vote of 92 to 8.
Bylaw No. 111, to grant to the city of Winnipeg, a franchise for the supply of natural gas, passed by a vote of 92 to 8.
Bylaw No. 112, to grant to the city of Winnipeg, a franchise for the supply of natural gas, passed by a vote of 92 to 8.

Automobile Collision.
Paris, June 3.—Mrs. G. Steindler, of the city of Paris, was injured in an automobile collision in the Bois de Boulogne. Her husband was slightly hurt. A special jury was summoned to try the case.

From One Day To The Other

Since She Went Home.

Since she went home,
 Longer the evening shadows seem to
 The winter days all so much of the
 And even summer winds are chill and
 dreary.

Since she went home.

Since she went home,
 The robin's note has touched a minor
 Its old glad song breathes a sad re-
 And even laughter soba with hidden
 bitter pain.

Since she went home.

Since she went home,
 How still the empty rooms her pres-
 ence blessed!
 Untouched the pillow that her dear
 head pressed;
 My lonely heart hath nowhere for its
 rest.

Since she went home.

Since she went home,
 The long, long days have crept away
 like years.
 The sunlight has been dimmed with
 doubt and tears.
 And the long nights have rained in
 lonely tears.

Since she went home.

General Botha's Talented Daughter.
 Miss Botha, who accompanied her
 father, General Botha, on his visit to
 England, has a fine mezzo-soprano
 voice, and during the voyage from
 South Africa she charmed the passen-
 gers with songs in French and Eng-
 lish. A well-known British general,
 who boarded the vessel at Marseilles,
 sang at one of the concerts, and Miss
 Botha played his accompaniment.

General Botha's sister and his daughter
 were described by a distinguished
 Englishman, who was with them, as
 "the most delightfully simple, abso-
 lutely natural women, I have met."

"Speaking of borrowing, I have met an
 acquaintance who has been in the habit
 of over-renting of mine for a long time
 and he won't give it up."
 "Why is it?"
 "My tailor,"—Silhouette.

Dorothy, aged three, was to be taken
 on her first long trip. She seemed
 most interested when told that she
 was on a ferryboat. About a few mo-
 ments her mother noticed a look of
 disappointment come over her little
 girl's face. Asking the reason, Dor-
 othy said:

"Where are they, mother?"
 "Who?" asked her mother.
 "Why, mother, you told me this was
 a ferryboat, and I've looked and look-
 ed and can't find a single ferry-
 boat!"—Dorothy.—Philadelphia
 Record.

Christie's Auction Room.

Our readers have no doubt all heard
 of England's famous and fashionable
 auction room, Christie's, but possibly
 some of our readers might wish to
 know a little of its history. The for-
 tune of heavy purses who should
 happen to be within easy reach of
 the "School of Art," will find a visit
 to the room at least an empty purse,
 and those of us who do not have a
 large purse, will find that the educa-
 tional advantage of looking at the
 valuable works of art exposed to our
 view will amply repay us for our
 trouble.

Our readers have no doubt all heard
 of England's famous and fashionable
 auction room, Christie's, but possibly
 some of our readers might wish to
 know a little of its history. The for-
 tune of heavy purses who should
 happen to be within easy reach of
 the "School of Art," will find a visit
 to the room at least an empty purse,
 and those of us who do not have a
 large purse, will find that the educa-
 tional advantage of looking at the
 valuable works of art exposed to our
 view will amply repay us for our
 trouble.

James Christie I and James Christie
 II carried on the business at the
 original address until 1834, when it
 was removed to the premises of the
 existing firm, Christie, Manson &
 Woods, in King Street, St. James.
 Christie's is the aristocratic among
 sales-rooms and at the death of the
 late beloved Queen, it was this firm
 to whom was confided the important
 work of appraising Her Majesty's val-
 uable personal estate. James Chris-
 tie II was a scholar and an exquisite
 and it has been said of him that he
 "raised the business he follow-
 ed to a perfection." The firm has
 in its employ the most noted experts
 of paintings, carvings, coins, old chi-
 na and curios of all descriptions.

Christie's valuation of any treasured
 work of art will never be questioned.
 The firm will not make a rule of ex-
 amining any article unless it is to
 be placed in their rooms for sale.

Amongst the famous collections that
 have been sold within its walls we
 may mention those of Charles Dick-
 ens and the Duke of Cambridge. In
 1880, the Bernal collection, which was
 sold by Christie realised £70,854, but
 this was quite eclipsed by the famous
 Hamilton Palace, somewhere in the
 early '90s, when the auctioneer was

kept busy for seventeen days selling
 works of art and in the end had re-
 turned the grand total of £377,262. In
 1898, thirteen Apostles' spoons of Hen-
 ry VIII, sold for £4,000, and even
 more recently, cups upon which about
 4000. Romney, the famous painter,
 received only £20 for painting Mrs.
 Maury's portrait, but it was recent-
 ly sold at Christie's for £2,510; Ren-
 boy's "Madonna and Child with St.
 John" brought the enormous sum of
 £2,430; A Chinese prince's own sold
 some years ago to Mr. Louis Hull,
 the art collector, for £35, when sold
 by Christie brought nearly £5,000.

SOCIAL.

Miss Doris Oliver, whose marriage
 to Mr. Anderson in the end had re-
 sulted in this week, has been the re-
 ceiver of many social functions in
 Ottawa. Miss Rose Peck and
 Miss Kathleen Ewart each gave
 charming teas for her honor, and on
 Saturday last, Mrs. Roberts Allan
 gave a luncheon.

Miss Oliver is to be married on
 Thursday of this week. Her bride-
 mads are to be Miss Clara Oliver,
 Miss Nan McDonald (Portage la
 Prairie), Miss Marion Creelman
 (Montreal), Miss Marie Dubuc (Win-
 nipeg). The bride's little sister Lyle
 will be the flower girl. Mr. Ander-
 son will be supported by his brother,
 Mr. Duncan Anderson. The sisters
 will be Messrs. Ross, Brackley, Mac-
 Kenzie King and Hamlin P. Hill.
 Mrs. McMahon has issued invita-
 tions for a small tea for to-morrow
 afternoon.

Mr. and Mrs. J. N. Chatwin of
 Regina, announce the engagement of
 their third daughter Kathleen Pearl
 to Mr. H. M. Moore of Calgary, a
 son of Winnipeg. The wedding will
 take place about the end of June.
 Miss Beatrice Beck is expected to
 return home this week. She has
 been spending some months in Cali-
 fornia.

ANNOUNCEMENT.

Mrs. H. V. Shaw will not receive
 on the first Thursday of this month,
 Mrs. Cecil E. Shaw will receive to-
 morrow, Wednesday, June 5th, and
 not again this season.

BIRTH.

CAUTLEY—At Belton Lodge, Edmon-
 ton, on Saturday, June 1, 1907, to
 Mr. and Mrs. R. W. Cautley, a
 daughter.

Killed by a Scratch!

SAD INCIDENT WHICH ZAM-BUK MIGHT HAVE AVERTED.
 "John Cox has died in the Saskatchewan Hospital from blood poisoning
 which followed a scratch on the hand." Compare this sad result with
 the following experience told by Alf Henry Orth, of Shipley, Ont.—"I
 had a rusty wire nail run under my thumb-nail, which caused a very bad
 wound, and the nail being rusty I feared serious consequences. I knew how
 good Zam-Buk is, and so I rubbed a little and let it run into the wound under the
 thumb-nail. In quick time it relieved the acute pain, and after that I went on
 with my work just as usual. In a short time the injury was quite cured."

Now, why did this severe wound cause no trouble, and the trivial scratch and festy? Nothing
 could more powerfully illustrate the virtue of Zam-Buk. Blood Poisoning, Erysipelas,
 Ulcers—all these were never intended by Nature. Zam-Buk contains just those lethal agents
 and extracts and essence which Nature has provided for healing sores and wounds, and preventing still
 worse. Zam-Buk applied to a sore or wound, instantly kills the disease germs and cleanses the
 wound. The smarting and burning at once ceases, and the process of healing is commenced. In a
 short time the surface covered with Zam-Buk is as smooth and healthy as before injury. Don't ask your
 friends, who have proved Zam-Buk if this is not their experience.

ZAM-BUK CURES SUMMER ECZEMA, ITCH, ETC.
 For Summer Eczema, Itch, Heat Spots and the many serious skin troubles common in hot weather,
 Zam-Buk is a sure cure.

Mrs. M. McCulloch, of Fall Brook (Ont.), says: "I had lice on my face and ears, and in hot
 weather the itching and pain were terrible. For two years everything I tried was unavailing.
 Zam-Buk was highly recommended to me and, to my great delight, it cured me completely."
 Zam-Buk cures Heat Sores, Sunburn, Chafing Sores, Ulcers, Sore Feet, Blisters, Blood
 Poison, Insect Bites, Erysipelas, Eczema, Itch, Fles, Fungus, Cuts, Bruises,
 Burns, Scalds and all skin injuries and ailments. All drug
 stores and stores sell Zam-Buk. Price, 60c a box, or mailed
 direct from Zam-Buk Co., Toronto, for price 6 boxes for
 \$2.50. (C. E. Pajford Limited.)

TUESDAY, JUNE 4, 1907.

THE VOTE YESTERDAY.

The vote on the gas-by-laws yesterday was a most decisive one and a gratifying feature of it was the exceptionally large vote polled. When important matters of this kind are before the electors it is important that a good vote should be polled so that the result will be a true reflection of public opinion.

The endorsement of the Artificial Gas by-law of a vote of almost four to one is a pretty clear indication that the citizens of Edmonton want gas and the defeat of the Natural Gas by-law by a majority larger than the entire favorable vote indicates that exclusive franchises are not popular in this city, but it is more of a protest against the Natural Gas by-law than opposition to the Natural Gas company. From the first his workshop made it clear that he was going to use his position to force the "monopoly" clause of the Natural Gas franchise through the council and that he was going to prevent the Artificial Gas people from getting even a fair deal, if at all possible. He arranged to let the right to vote twice in order to put the monopoly clause through the city council, and bluffed an alderman into not voting, thereby violating the city charter, in order to get the Natural Gas by-law submitted to the electors with the exclusive feature still in it. His next move was to eliminate the agreements from the by-laws when advertising them, so that the public would not read them in full, and being defeated in this, the next best thing was done; they were kept out of both daily papers. He also wrote two letters, one revealing his future purposes and ambitions, and the other setting forth the case of the monopoly franchise he was favoring. The last letter was too great a load for any by-law to bear up under; the comparisons between the cost of coal and gas were so ridiculous and the assertions of municipal ownership while advocating monopolistic privileges was too incongruous for the average elector. The vote yesterday, however, sets every thing right and administers the necessary rebuke.

The vote on the hospital by-law was very satisfactory, indeed, and also shows without any doubt that the citizens of Edmonton are not only practically in favor of furnishing the best possible accommodation for the sick and afflicted. This is the greatest of all charities, as well as a means of saving many valuable lives in the community, and the citizens of Edmonton spoke with one voice.

WARNINGS OR THREATS.

Eastern financiers continue to counsel municipalities against undertaking large enterprises in the present stringent condition of the money market. The Calgary Alberta suggests that the council may be a threat rather than a warning; that it may indicate a purpose rather than outline a condition.

It is natural, of course, that the capitalist should look with little if he is warning or ultimatum, it is tantamount to investment by the establishment of municipally-owned enterprises, and it is conceivable that he should exert his influence to check the movement.

But the pressingly important feature is that whether the counsel are warnings or ultimatums, they are unquestionably wholesome advice and nowhere is this advice more applicable than in western Canada.

The columns of eastern Canadian papers contain advertisements daily offering debentures of western towns and cities for sale. And the present offerings are by no means the entire supply. Behind them are more, being held for a more favorable season. And behind these again are the fact issues which must be met to finance prospective enterprises. Western Canada is offering and must continue to offer debentures by the million for many years—and at present there is no insatiable thirst for this kind of investment. Whether the warning of the bankers is simply an intimation of this condition of the market, or whether it indicates also a desire to discourage municipally-

enterprises, it appears to be a warning which is worthy of attention. If we cannot get the money for our enterprises, the practical result will be the same, whether the bankers have simply informed us that it is not procurable, or whether they have conspired to prevent our getting it.

HIS THEORY.

General Manager Lindsey, of the Fernie mines, serves notice on the public that the price of coal will go up, and that the blame may be divided between the public and the press.

In an interview in Winnipeg he is credited with saying: "As the price of coal is inevitable, owing to the action of the public and the press. The newspapers stated that the recent strike would lie up everything in the West, and the effect of this on the striking miners was to make them feel that the rotation of the wheels of industry depended upon them, and consequently they became more and more determined to raise the price of coal on account of the increased wages which they will have to pay the miners."

The theory of Mr. Lindsey is that the public should have frozen in place last winter, and that when the operators had licked the miners to a standstill, they would have celebrated their victory by maintaining the price of coal. The weakness of the theory is that the price of coal is not a subject of "consuming interest" to the departed.

ON THE SIDE.

Calgary News: "With another Breweyville added, what will Calgary be." Well, hilariously, we should say.

Secretary Tait, we are told, began his "career" as a newspaper man, and Senator Forsaker is perfectly willing that he should finish said career in the same humble but necessary capacity.

A Canton dispatch says troops are being sent to Swatow to punish the revolutionists. If the rebels have "revolutionized," half as many people as reported, it is time some one was sent to swat them.

Mexico and Guatemala are selling up their guns and throwing up earthworks. Why not send W. T. Stead into those regions on a lecturing tour? A country with W. T. Stead in his midst has excitement enough on hand without going to war.

Bjornejerne Bjornsen, the Scandinavian author, is said to write so badly that every line of his manuscript has to be copied before it is sent to the printers. Ruined his nervous system trying to sign his name properly.

Thomas F. Walsh, the Colorado mining king, studied under a tutor or several years after he made his fortune to correct the defects in his early education. Many a schoolboy could be happy to likewise defer his schooling.

The mother of the king of Portugal is said to have been bankrupted by her passion for dress. It must be embarrassing to have to tramp one's ambitions in such matters to fit the revenues of a second-rate monarchy.

A. A. Robinson, president of the Mexican Central railroad, began his career as an axeman, and if Mexican railways bear any similitude to the Canadian system, the president doubtless still finds opportunity for the exercise of his skill in the manipulation of that delicate but effective weapon.

Says the Calgary Alberta: "The Edmonton assessment is fixed at \$200,000, which worked out shows that each Edmonton man is worth \$100,000, which is about one-fifth as much as you would imagine he was 'worth' if you could hear his tell 'about it.' The jealousy of these rural hamlets knows no bound."

Professor Wiggin opines that the cold weather in North America, is due to a second moon which has sailed into our corner of the universe, and upon the even tenor of our meteorological affairs. The professor may be talking moonshine, but his guess appears about as reasonable as the average run. If correct, some measure must be taken forthwith to

prevent future encroachments of 't' responsible satellites. An amendment to the constitution might suffice for the United States, while Canada has always the privilege of an appeal to the Privy Council.

THE MIGHTY FALLER.

A Calgary poet, inspired by the special train of buffaloes falls on "the lunar monarch," in this fashion: Monarchs of old, we greet you as you pass us, Tame, docile, caged 'e'en as the humble sheep. Are the days when rolling prairies trembled, You reigned supreme with undisputed sway.

Not for a day, but through the countless ages, You reigned supreme with undisputed sway. And now we see you, bent and pened securely, Monarch no longer. Driven on your way.

Parwell, O King! Perchance when life shall leave you, In some far heaven again you'll reign supreme; Then in your glory this shall be forgotten, This deep disgrace as if it had not been.

F. DODSWORTH.

DEFFECTIVE TRAIN SERVICE. (Winnipeg Free Press.) For months past Western Canada has suffered from an atrociously defective passenger service by the C. P. R. The resident of Winnipeg who wished to go west to any point on the line of the country who had occasion to come to Winnipeg were faced with a state of affairs which was little short of maddening.

So far as the published timetables were concerned they were simply a delusion; and the man who depended upon them paid for his gullibility by waiting many hours at the waiting-rooms of railway stations.

In Winnipeg experienced travelers sought to keep themselves informed about the movements of trains by frequent telephonic communication with the information office at the station; but this course was attended only with partial success, because it is the settled policy of the information bureau to break bad news gently. It was their invariable custom when the train was from six to eight hours late to announce it as only two hours or so. Just what advantage to the railway company there was thought to be in this course is not very apparent, but the way it affected the traveling public was illustrated night after night by conditions in the C. P. R. waiting-rooms. Travelers who had telephones at their disposal, and were aware of this anomalous peculiarity on the part of the railway, were usually able to reduce their wait at the station to an hour or so; but others, who took the railway's first announcement as correct, had to wait four hours after at the station. Night after night the big waiting-room was filled with tired crowds, which always included a large number of weary women and tired children. At company points a journey was invariably marked by exasperating delays and long waits in inconvenient surroundings.

The unfailing answer of the railway company to complaints and public protests about this service has been to charge everything to the severity of the weather. A study of the situation, however, reveals the responsibility of the C. P. R. itself in much of the defective service; and shows a reluctance on its part to take steps which would reduce to a minimum the derangement of trains which can be justly charged to weather conditions.

The cause of four-fifths of the trouble in the determination of the railway company not to give Western Canada its own train service, but to

compel it to adjust its traveling needs to the vagaries of transcontinental trains which for the months at a time are run without regard to their schedules. To illustrate how regular the transcontinental trains are in being irregular a table showing the hours of arrival of the transcontinental train from the East in Winnipeg from March 2nd to May 6th is submitted. A glance over it is enlightening. Train No. 1 is supposed to arrive at 9 a. m. During the 46 days under review it was never once on time. It usually came in from two to twelve hours late, and often it was cancelled. The result was that travelers along the main line from Winnipeg westward who desired to make use of this express in place of going to the train at the specified hour and boarding it, had to keep guessing at the hour when it would arrive and proceed on its journey.

The night train was even more erratic in its movements. It was due to arrive from the East at 10:30; but it did not arrive at good form to pull into the station before midnight, while it preferred to come about three o'clock in the morning.

CUSTOMS RETURNS.

The customs returns for the month of May were \$1,232,000. The returns for the corresponding month last year were \$1,358,000. The number of express parcels handled in May this year were 278 against 169 in May, 1906.

SPECIAL DISPLAY

Ladies' Coats and Suits

at the

Hudson's Bay Stores

We have just received a large importation of Ladies' Rain Coats and Suits. These are without doubt the most stylish and exclusive designs that we have ever had.

There is a feeling with the Edmonton Ladies to wear nothing that is not absolutely the latest. We have, therefore, gone more extensively into these high grade goods.

The New Eton Suit, with Gibson shoulder, is one of our most popular designs this season. In Fine Tweeds trimmed with Persian Lining, also in Chiffon Broadcloth, Panama Cloth and light weight Serges.

In Ladies' Coats we have a Novelty made in Cream Serge and Cream Hopsack, beautifully embroidered with Silk at \$10.00, \$15.00, and \$18.00. This is undoubtedly the smartest thing of the season.

Your inspection is cordially invited.

CANADA'S IMMIGRATION AT FLOOD TIDE

(Toronto Globe.)

When the trans-Atlantic steamship companies announced early in March that all available space for immigrants on almost every steamer sailing for Canada up to the month of July was taken in advance, and when about the same time the immigration department gave out the forecast that the total immigration to Canada, from all sources, this year would probably reach the splendid total of three hundred thousand, the people of Canada began to realize that the crowding tide of a decade's immigration into this "last west" land of unexploited riches had at last set in with a rush. The decade since 1896 had shown year by year a steadily increasing influx from all quarters of the globe, the total arrivals for the fiscal year 1906 showing an increase of over 500 per cent. as compared with the totals for 1905. The immigration of the second decade of the regime of the present government is starting in with a rush which bids fair to keep the geometrical progression rate of increase established during the past few years.

The estimate for the present year is 200,000, a considerably larger addition to the Dominion's population in one year than came in during the whole decade from 1896 to 1906. For the first four months of the present year the arrivals have totalled a little over 80,000. For the first four months of 1906 the arrivals totalled 66,569. The increase is about 45 per cent. All reports from immigration officials, steamship booking agents, representatives of the Salvation Army and other immigration agencies indicate that this rate of increase will be easily kept up until the end of the year. Probably it will be increased if the steamship companies can handle the waiting crowds. For the month of April alone the rate of increase was about 70 per cent.

Canada's immigration snowball has started to roll. Watch it grow!

But although considerable stress is put upon mere increase in numbers, the immigration department rightly puts even more stress on the quality of Canada's new citizens and their fitness to become useful members of the growing nation. Canada wants plenty of building material in this process of rearing the national edifice. And one of the most encouraging features of the immigration situation at present is that the largest proportion of increase is in immigration from Anglo-Saxon stock.

Here are the comparative figures for the past seven fiscal years:

Immigration to Canada 1900-7.

Year.	British.	U.S.	Total.
1900-1..	11,810	18,362	30,172
1901-2..	17,280	23,723	40,993
1902-3..	41,792	37,090	78,882
1903-4..	50,274	34,723	85,000
1904-5..	63,359	37,364	100,723
1905-6..	76,726	44,349	121,075
1906-7..	55,791	34,217	89,998

Total 520,171 320,841 841,012.

*Nine months, July 1 to March 31.

Nearly 600,000 of the immigrants coming to Canada during the seven years out of the total of 840,000 have come from Great Britain or the United States and are of the class of immigrants best fitted for the conditions of life in this country. Compared with the cosmopolitan population flowing into the States from all the countries of Europe during the

CROKER'S AMBITIONS.

London, June 3.—The newspapers are reviving the report that Richard Croker cherishes an ambition to enter the British parliament as an Irish Nationalist member. Recently Mr. Croker has taken an interest in the work of the Nationalists and made contributions to the party, small though they were, judged by American standards, but automobiles for electioneering purposes, and identified himself with the party by appearing on the platform at the recent convention in Dublin. It is doubtful, however, if Mr. Croker would be willing to forego his American citizenship, and more doubtful if he could find a constituency desiring to take him up as a candidate or if the party leaders would welcome the acquisition of a politician of such a masterful nature. A member of the Irish Nationalists remarked to the Associated Press that the party would not welcome any attempt to introduce American "machines" methods into its politics. Mr. Croker's entry, moreover, is a barrier to his own active work of any sort.

MEN URGED TO QUIT.

Birmingham, Ala., June 2.—The Birmingham trades council have issued an open address urging all union men in this district to cease work Monday at noon. This action is the result of the refusal of the Birmingham Railway, Light and Power company to receive a committee of union men to discuss plans for the settling of the present lock-out of the street employees. If there is a general response to the appeal, Birmingham's industries will be greatly handicapped, for there are fifteen thousand union men in this district. Well informed men are of the opinion, however, that comparatively few will stop work.

JAPS GROWING RESTIVE.

Tokio, June 3.—It is reported that members of the progressive party will soon hold a meeting specially called to consider the American question and to formulate a demand on the American government relative to the treatment of Japanese in America. It is also reported that if necessary a mass meeting will be called to demonstrate public feeling against the reported persecution of Japanese in San Francisco.

same period Canada has every reason for self-gratification. Further analysis of the British immigration to Canada, during the same period is also of interest as showing the relative contributions of England, Scotland and Ireland. The figures are as follows:

Year.	English.	Scotch.	Irish.	Total.
1900-01..	9,401	1,473	183	11,057
1901-02..	12,858	2,553	1,211	16,622
1902-03..	32,510	7,048	2,286	41,844
1903-04..	38,846	10,243	3,125	52,214
1904-05..	49,317	11,744	3,588	64,649
1905-06..	65,532	15,846	5,011	86,389
1906-07..	41,639	10,729	3,484	55,852

Totals 286,507 90,546 30,227 347,280.

*Nine months, July 1 to March 31.

It will be seen that the English immigrants have outnumbered the Scotch by four to one, and the Irish by twelve to one. During the past two weeks, however, the proportion of Scotch immigrants have been rapidly increasing.

The immigration department issued special instructions to all agents early in the year to especially encourage the immigration of those who are adapted for and who intend to engage in agricultural pursuits or railway construction work in Canada. "A free farm in Canada, via the railway route," is the heading of hundreds of thousands of immigration circulars now being distributed in Great Britain and on the continent. Special efforts are also being made to induce immigration of female domestic servants. During the fiscal period of nine months closing March 31 last the classification of occupations of immigrants arriving at the seaports of Canada included the following:

	Males.	Females.	Children.
Farmers ..	11,887	2,785	3,519
Laborers ..	20,060	2,502	3,336
Mechanics ..	13,483	5,405	5,526

Being the nine months 4,583 female domestic servants were received, 4,113 clerks, etc., and 1,267 miners.

Special precautions are being taken this year to guard against the immigration of any undesirable in respect to physical, mental or moral qualities. A rigid medical examination is insisted upon, and any new arrival who is likely to become a burden upon the state, or who is feeble-minded or who has had a criminal record in his native land is deported as the expense of the steamship company. Reports received so far this year, however, indicate that the class of immigrants now arriving is unusually good. For the fiscal period ending March last only 440 had to be deported. Since 1902 the total number of deportations has been 2,122, proportioning of hardly one in every four hundred.

At the present rate of increase it is not unreasonable to expect that it will not be long before "handing out" the "back" of the year will be a year mark. Immigrants who fail to better their condition in Canada form a very small percentage of the total; and every new arrival who does well here upon his immigration agent by writing home to his friends in the home land to tell how this new country of liberty and opportunity stands ready to relieve the pleurisy of people in the congested areas of the old world.

GOVERNOR LITTLE ILL.

Greenwich, Ark., June 2.—Governor John H. Little had a sinking spell this afternoon which lasted fourteen minutes. He rallied, however, this evening and was resting quietly tonight.

SESSION AT FRANK.

Lethbridge, June 3.—Owing to Lewis Hockett, one of the commissioners being detained here, the coal commission will not take evidence at Frank until Tuesday.

BLUEJACKETS REPLACE STRIKERS.

Marseilles, June 3.—The shipowners of Marseilles yesterday asked the prefect to supply bluejackets to replace the strikers. The prefect declined the matter, and upon receiving an affirmative reply, 64 bluejackets were brought over from the naval barracks at Toulon.

ALBERTA OATS FOR JAPAN.

Vancouver, May 31.—A special shipment of three thousand tons of Alberta oats will leave Vancouver between now and June 15 for Hong Kong either on the steamship Wyneric or the Shawmut. The Wyneric is now en route from the southern coast to Esquimaux, where she is to enter the dry dock for an overhauling, and if she is launched in sufficient time to handle the shipment she will come to Vancouver to load. If, on the other hand, the Shawmut should be first available to take the oats she will carry them.

The consignment is being gathered together in Alberta by Richardson Ker Milling company, and already a number of car loads have reached Vancouver. The entire shipment will be sacked for easy handling.

The oats which are already in the C. P. R. yards are of excellent quality, in fact Alberta has never been known to export poor oats. It is understood that the entire shipment has been guaranteed to run between forty-two and forty-five pounds to the bushel.

Italians Celebrated.

Rome, June 3.—Today the people everywhere celebrated the anniversary of the granting of a constitution to the birth of Pope Pius X. and the death of Garibaldi. A fact much commented upon is that among the many telegrams of congratulation received by Pope Pius X. the greatest of these was from Emperor William.

REAL ESTATE ADVERTISEMENTS

RIVER HEIGHTS

The beautiful residential subdivision of River Heights is now being offered for sale for the first time at prices and terms which bring home sites within the reach of all.

River Heights "takes" in a rough-easterly 50 acres of river lot 10, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for a centre and a radius of one mile cuts the property in the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the business part of either city. The property which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights subdivision.

As a homestead nothing better has ever been offered. The prices are not inflated. They are placed low for a quick sale, but only a limited number of lots are to be sold and these are to be placed, as far as possible in the hands of actual home builders.

Municipal improvements, such as water works, light, sidewalks, etc., will all be forthcoming within a year or so on account of this fact that house building is to be encouraged.

The lots which are not sold on the first sale will be kept for a year and until these improvements are secured at once. This is not an "out on the lot" proposition. It is right in town. If you care to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.L. 10 to be sold. These lots are 50 x 180. They overlook the City of Edmonton, the parliament buildings and have a clear view of five miles of the valley of the Saskatchewan River. No finer lots were ever offered at any price. These eleven are going at \$1,000 each, one-third cash; balance 6 and 12 at 7 per cent.

In block 3 of R.L. 10 there are a limited number to be sold at from \$200 to \$250; here, in the corner lots, 50 x 130 feet to a 20 foot lane. In sub-division of River lot 21, lots are from \$125.00 to \$150.00 for inside lots and \$250.00 for corner lots. Size of lots, 14 chains by 2 chains.

There are 11 View Lots in R.L. 10 which will go at \$1,000 each, one-third cash, six and twelve months, seven per cent. interest.

Now Offered For The First Time

A beautiful Residential Sub-Division within the City Limits of Strathcona and less than one mile from the Edmonton Post Office.

RIVER VIEW LOTS UNEQUALLED IN THE PROVINCE OF ALBERTA.

Whole homesites easy of access to either city. The construction of the Street Railway will bring them within 15 minutes of the business centres.

Beautiful View Lots \$1000 each

One Third Cash; Balance 6 and 12. Inside Lots \$125 to \$350

NEWS OF BUSY WEST

LACOMBE.

The Lacombe Brass Band was started some three weeks ago by a number of young men forming themselves into a band and sending a few instruments.

Councillor Skinner has notified the mayor that he has been elected against the town for the sum of 70¢ claimed to be owing him. The items which make up the accounts are a safe rent, telephone rent and sixteen days' salary for the year 1902.

A meeting of those interested in the formation of a company for the manufacture of brick was held in the town hall last week. The question was fully gone into, but nothing was done.

Preliminary arrangements have been made at Lacombe for the erection of an Alberta-Picnic elevator this season.

The Breckenridge Milling Company are putting in the latest improvements including modern dump scales at their Lacombe elevator, and are now open for business with the farmers in all kinds of grain.

The Methodist church has been moved back on the lot to make room for a considerable enlargement by building an addition to the front.

RED OAK.

The anniversary services of the Baptist congregation on Sunday and Monday last were most successful. On Sunday the services were a special character.

Charles M. Hays, president of the Grand Trunk Pacific, has written the board of trade that he will give question of an extension of the G. T. P. to Red Deer, his careful consideration.

It is understood plans are being taken by the town to ascertain what is the drilling outfit can be procured for use in drilling near Red Deer for natural gas.

Temporary quarters have been secured by the Red Deer and a branch will be established here about the first of July.

The Breckenridge mill will be moved back from the railway shortly, twelve feet on the south side and six on the north, and we understand a contract has already been let and is

Calgary firm for \$1,500 to do the job. It is an interesting lot, but the work had to be done to get the new track in for the Canadian Pacific Railway.

MACLEOD.

Two weeks ago, R. K. Kennelick took a team of four prominent citizens' estimate to go for a drive of fifteen miles. When the party returned one horse dropped dead and the second was almost ready to go.

On Thursday morning a rancher named W. E. Colborn dropped dead at his place. Heart failure is said to have been the cause of death. The death of John Hall, one of Macleod's oldest old-timers, was a great shock to everybody on Thursday of last week. He came to Macleod in the '70s.

An accident occurred at the power-house to the engine the other night just before starting up. It took several weeks' shutdown pending arrival of repairs from Winnipeg.

CAMROSE.

Camrose is shortly to have a mammoth brick manufacturing, \$100,000 will be expended and twenty experienced brickmakers are now en route from Europe to commence operations.

The Windsor Hotel fed over 700 people and the Arlington over 500 on Victoria Day, says the Camrose Mail.

PONOKA.

Rev. K. C. McLeod left on Tuesday to attend the General Assembly, which will be held in Montreal.

Building operations are now going actively at present, and our local carpenters are fully employed.

Mr. and Mrs. C. D. Alder left for Vancouver on Wednesday, where they intend making a prolonged stay in the hope of an improvement in Mr. Alder's health.

Notwithstanding the warnings that have been given regarding prairie fires, people will act carelessly. There have been a fire destroy many buildings and about 400 bushels of grain on the farm of W. N. Story of Macleod.

MEDICINE HAT.

The Strathford Building Company,

Limited, of Stratford, Ont., has been awarded the contract for the Medicine Hat Milling Company, Ltd., for machinery to double their capacity, at a cost of \$4,000.

The city council has granted the Board of Trade \$2,500 to assist in the publicity campaign that it is conducting.

A record trip was made by the brick ordered from Minnesota for the Bank of Commerce. The order was only given three weeks ago and the bricks are already on the ground. The stone-work for the foundation of the building is now being laid.

At a recent demonstration of Mitchell, the new explosive, a granite boulder over four feet square, was blown into pieces each about the size of an egg by a halfpound charge.

The Century Methodist Church has decided to erect a more commodious church building. The congregation have been offered \$20,000 for the present site.

WETASKIWIN.

One of the best known citizens of Wetaskiwin in the person of Mary, the beloved wife of Mr. W. J. Dore, passed away on Saturday afternoon last after a prolonged illness.

Inspector Thibault has donated a basketball trophy to be competed for by the public schools between Wetaskiwin and Cardston.

Wetaskiwin is contemplating the formation of a 10,000 ft. The Wetaskiwin baseball team has challenged the Edmonton league team to a friendly game.

A couple of fine boilers, and a new stock for the Edmonton area are now in the yards here.

Messrs. McNamee and Campbell moved to Edmonton several days ago and made the run home, over very indifferent roads and through rain, in the excellent time of two hours and 30 minutes, including two stops.

VERMILION.

Harry Bowtell has been appointed interior homestead inspector for the Vermilion district.

Vermilion town council has decided not to let the tender for the new town hall, but to have the work done by the town.

In spite of the backward season outfitting goes steadily on and each day witnesses throngs and throngs of homesteaders going out to their locations. Ontario, California, Pennsylvania and Oklahoma are contrib-

uting to the rapid settlement of the famous Vermilion Valley.

INIR-ARL.

D. McMillan and C. A. Mason, Edmonton, came down on Sunday. They have bought and are shipping a carload of heavy and driving horses.

Amongst other purchases made, was the bay horse "Prince" from Mr. Robertson, Royal Hotel, at a good figure.

On Thursday morning, F. Sankers, of Little Red Deer, arrived in town with the hides of a fine cinnamon bear and two cubs, which he had shot west of his farm in the Okla-homa district.

On Sunday afternoon a handsome automobile, carrying five passengers, arrived in town. It is rumored that it belonged to a Strathcona firm. On arriving at luncheon the motorists evidently made a mistake in the trail, for after some time they again arrived in town, this time from the east. They then got on the Calgary and Edmonton trail and headed northward—Province.

T. E. Buchanan spent the week-end in Edmonton, and while there he saw J. Dodd and secured the necessary permission from Mr. Dodd to place a basketball trophy to be donated to the Little Red Deer.

The Little Red Deer will consist of a title drain about 1,000 feet long. Arrangements are now being perfected to form a syndicate to drain the lake between the ranches, and it is expected that before next year every thing will be in shape and finished will head of one of the best tracks in Alberta.

PINCHER CREEK NOTES.

Although Pincher Creek is a cattle country yet, Pincher Creek takes little interest in the Southern Alberta round-up which will this year cover a larger district than it has for several years.

The round-up is really a thing of the past in Pincher. Almost all the cattle are now being kept on the steady encroachment of the settler. The Walder ranch and the Company, which has leased the Piegas reserve, have the only large ranches in the district.

So, while homestead swamps are almost as much in evidence on the narrow strips of the Frontier town as on the surrounding grassy hills, as are the Blackfoot Piegas and Blackfoot their range is easily found; their life has been and death-ly than formerly. A polo match will be played on Thursday day of about

general interest than the round-up. It is, however, expected that the excitement of the large game which started out from Little Red Deer will still show upon Pincher district in two or three weeks' time.

His Lordship's annual pastoral tour of Southern Alberta, visited St. Michael's church recently, contrasting large number of children. During his stay an interesting tale was given in his honor by the pupils of Kermaria convent who attend from the neighboring ranches and mining towns in the Crow's Nest district.

A picturesque scene, reminiscent of ancient German customs, was afforded one afternoon when the bishop set out to visit a prosperous German colony at the foot of the mountain and spent for days their new mission church. A score of riders on fine horses gaily caparisoned with ribbons had come in twenty miles to form a guard of honor about the bishop's carriage. They were led by a standard-bearer carrying aloft a large silken flag in the papal colors of white and gold. Two marshals picturesquely attired were also in attendance.

The cavalcade rode down the hill from the church, through the house, straggling main street of the town, and out to the plains and hills, visible for a long time during the journey of the town. It was a picturesque sight, and rarely seen in Canada. This German colony is mostly composed of Germans who emigrated from the German states.

The hermit of Pincher Creek, as the venerable Father Lacombe is affectionately known in many parts of Canada, is now engaged adding these notes to his manuscript, a long and interesting contribution to western Canadian literature, which he has published in French and English.

Rev. Father Lacombe, a brilliant young priest of Montreal, who will write the memoirs in French, has arrived and will stay for some time in the hotel material for the English book is already largely collected.

Although past eighty, Father Lacombe has a vivid recollection of occurrences of 30 and 40 years ago, and with slight effort recalls them now for his two collaborators in the memoirs. Details of the picturesque early days of missionary life in the west—of trading posts, of Indian camps, of the Mississippi and the Saskatchewan—will be told in this book in relation to his own life with characteristic dramatic force, the venerable missionary ap-

pears to live them again—not merely to recall them.

Important journals written by himself in snapshots of time in his appointments, together with quantities of correspondence covering the past 30 years, help out his own reminiscences. This correspondence, now being arranged, is of a most varied and interesting nature. It illustrates letters from many friends and relatives to the grand old man of the west, his side by side with gracious intimate letters from vicar-general representatives, and with numerous and affectionate communications from men whose Imperial daring and energy in the financial and railroad worlds are as much part of the west's history as the missionary's own civilizing labors with the red man—living and dead, whose names are household words in Canada.

There are historic letters from statesmen; old faded letters from co-workers at remote posts in the west; fraternal epistles from Archbishop Tache and Bishop Grandin—two of the strongly outstanding figures in the ecclesiastical history of the territories—from Bishop's Chab, Parcel, Dore, Groulx and the present missionary bishop of St. Albert. With these are touching appeals and grateful recognition from individuals who have won their way to the sphere of the benevolence of this "Man of the Good Heart," as he was named by the Blackfoot and Crow fifty years ago. In all there is material for several important chapters of Canadian history.

AGAINST EDUCATION.

Editor Bulletin.—The Ruthenian priest, Rev. Hura, is against the school in Edmonton.

The Ruthenian school was opened on the 25th of May in Mr. Rudy's hall on Minstrel Avenue, and there were over 40 pupils when Mr. Camrose started to teach, and he says that he never expected that Ruthenian boys and girls knew as much as they do.

But when Rev. Hura, the priest of the Greek Catholic church on Namayo Avenue found out that all of the church members were interested in the school he opposed the school. So on Sunday the 2nd of June in his sermon he said that anybody who does go or would go to that school would be sent to hell, because the members who organized the school in Edmonton had done so with the help of the devil. Then he said that Ruthenians (Galicians), did not need a school; anything of that kind; that they would know enough with what he was teaching.

But we are sorry to say that Rev. Hura needs to be taught himself, so how can he teach Ruthenians who come across to this country?

We know that Canadians are wondering why Ruthenian people are so far behind with civilization, but we want you to understand that it is not our fault; it's the fault of our leaders. They are the men who are holding us back from civilization—men like Hura; and there are lots more of them, because they know that if our nationality, which is Ruthenian, could get a little education, we would be able to tell who these men are. So don't blame us; but Rev. Hura in Edmonton, and men like him all over.

THOMAS TOMASHAVSKY.

AFTER ALBERTA HORSES.
Calgary Herald.—Lieut.-Col. Mc-

Laughlin arrived in Calgary yesterday from the old country.

The British war office has sent him to Calgary with instructions to remain in this city for some months, probably for an indefinite period. His object is to investigate the question of securing recruits for the British army and report to the British government.

This action is stated to be taken by the government with a view to encouraging the regular raising of recruits suitable for the requirements and for that purpose they have selected Alberta. It is felt desirable that if possible recruits should be bought from territory under the British flag.

The war office on two or three occasions has purchased recruits in Alberta, but the market is not steady enough, and the price offered did not encourage breeders here to enter the market, but rather to raise heavier horses, which, if in some instances were not perfect, would still find a market as work horses.

It is pointed out that if the war office wishes to obtain horses here it is necessary to insure a steady market for the kind of animal required. It will of course take four or five years before any considerable number of these recruits will be ready; it is a steady and large market is secured.

A prominent rancher told The Herald that in order to encourage the regular raising of that class of horse, the government should offer a bonus of 2 or 3 much per head in addition to the regular price.

Four Drowned.
Spartanburg, S. C., June 2.—Four negroes were drowned in the Tyger river, fifteen miles south of here yesterday, when a bridge gave away with a male team drawing a wagon, occupied by the four negroes. Their bodies have not been recovered.

Aged Merchant Dead.
New York, June 2.—George W. Woodleigh, 66 years of age, for over twenty years business manager of E. E. Rice's Company, died today from a complication of diseases.

Beechmount!

The Very Best Thing

.. On The Market ..

BECAUSE it is only one-half mile north of the City limits

BECAUSE it faces Namayo Avenue.

BECAUSE it is situated between the G.T.P. tracks and shops.

BECAUSE the prices are so reasonable.

BECAUSE the price of lots half mile nearer city is \$800.

BECAUSE the price will double as soon as work begins on railway this fall.

BECAUSE the terms of sale are very easy.

BECAUSE the G.T.P. runs right through it.

BECAUSE lots half mile further out are higher price.

BECAUSE men of experience say there is nothing to compare with it.

BECAUSE it is high and dry ground under cultivation.

BECAUSE the street railway will run to it as soon as shops are built.

BECAUSE BEECHMOUNT SELLS at \$100 Per Lot Up.

BECAUSE the Lots are 150 feet long.

Coal and Country

A half dozen Illinois Counties are less in area and productive capacity than the country surrounding and directly tributary to Vegreville. The extent of choice land whose owners do their trading in Vegreville is prodigious. Talk with anyone well acquainted with Alberta about farming land and Vegreville is almost always named as the best and biggest farming district in this province. On top of this comes the news of finding coal inside of the city limits of Vegreville—11 feet, 240 feet down. It's bound to make a town of 25,000 people before it stops growing with its country and coal. We have lots for sale in Vegreville that are choice and near, sightly and well drained. Prices are low and lots are big, 50 x 150 with good wide streets and alleys. They are good investment and are selling.

STRICT NEWS

BLUEBERRY.

Special Correspondence to Bulletin.
Most of the farmers of this district have finished seeding and much of the grain is up.

The football match between Stony Plain and the Pale Peaters on May 24th, Victoria day, was very interesting and everybody present seemed to enjoy themselves. The Stony Plain boys won the game. There was also a tug of war between the two teams in which the Pale Peaters won. The dance in the evening was very enjoyable and, severely, present seemed to have a good time.

Mr. George Nicholson returned from the Fort Saturday last, where he attended the races on Victoria day, May 24th.

Miss Wade and Miss Ingle, of Blueberry spent Friday evening at the home of Miss Ingle's parents at Stony Plain. They do not doubt had a good time.

Mr. and Mrs. W. C. H. and Miss Ingle, spent Sunday at Lake Pat. At 3 p.m. they returned to the home of Mr. and Mrs. Stash, where they enjoyed the remainder of the evening, after a most enjoyable day's outing.

Messrs. Philip and Peter Baron had the misfortune of having one of their best horses poisoned by some unknown person on Sunday evening May 19th, the horses were all right last Monday morning and Peter Baron went to the stable as usual to feed his horse, to his surprise he found one of them dead and on a further investigation the animal was found to be dead. He, not thinking much about it, dragged the horse away.

While watering the colts and giving them their oats, one of them started to tremble. Mr. Philip Baron did not collect from the stable and ran to the door of the poor animal dropped dead. Mr. Philip Baron, who had been absent from home, just then returned and Mr. Peter Baron went for veterinary aid and telegraphed the police. The doctor came, and in the feed box a white powder was found which he pronounced to be strychnine. The horses were examined and it was discovered that their death was due to poison. The police are now on the lookout for the offender. The horses, Baron had just bought and had paid a good price for the horses.

Mr. J. E. Ingle leaves on Friday next for White Lake on business. He will return on Saturday. Miss Wade leaves Stony Plain next Saturday for Edmonton where her parents are residing. Miss Wade has been teaching in the Stony Plain district, she has given good satisfaction while teaching at blueberry and the pupils will miss her.

Mr. and Mrs. M. E. Ingle, Mr. and Mrs. Fred Radeff are visiting relatives in Stony Plain town on Saturday last.

Mr. Nicholas Penas is visiting his Russian friends at Blueberry recently.

A concert will be held at Blueberry next Friday as it will be the last day of school. Several of the children of Blueberry are to be seen wearing flowers. Flowers are not very plentiful yet. Mr. Carr and Mr. Ingle, of the firm of Carr, Ingle & Co., lumbermen, at Stony Plain, were in Edmonton last week on business. Mr. Steele had the misfortune of having a good binder burnt up by a prairie fire. The binder was under a shed, luckily his house did not burn. There is no one living east and thus the fire made great headway before any one was on the scene.

A son was born to Mr. and Mrs. George Nichols. Mr. and Mrs. Henry Hennig had a visit from a stork. It left a young daughter.

FORT SASKATCHEWAN.

(Special Correspondence of The Bulletin.)
Mr. and Mrs. Charles Gordon of Vancouver spent May 24th at the Fort. Mr. Gordon was a former resident here.

Mrs. McKellar of Whitford was a visitor here last week.

Mr. Karl Graham has joined the staff of the Merchants' Bank. Miss Louise LaPage, who has been ill for some time, was removed to the hospital at Edmonton on Thursday.

Mayor Grisdale, formerly in command of a Division, B. N. W. M. P., paid us a flying visit early last week.

Mr. C. H. P. Mount intends opening the office over Kelly & Watson's new implement store on Ross street, where he will carry on business in real estate, fire, life, accident and loan insurance agent.

The store visited the home of Mr. and Mrs. S. O. Jones last week and left a gift of a little son.

The Strachan-Spence Company will give their entertainment, "Scotland's Song and Story," in Simmons' Hall here, on Thursday evening next. This company came last year and no doubt will be greeted by a good house again, but an entire program of Scotch music, is a very depressing effect on a mixed audience.

We understand Mr. A. W. N. Campbell has received a large quantity of nursery stock from the Palman Company of Toronto, consisting of fruit trees, shrubs, bulbs, etc., to be distributed around the Fort and district.

A new cheese factory has been built at Lamoureux by Mr. Audlar. They expect to commence operations in the course of a week or so. Mr. Napoleon Ferguson, an experienced cheese dealer at Quebec, will be in charge.

Success to the new undertaking. The buffalo for Elk Park are expected to pass through here on Saturday. The park is completed and everything is in readiness for this famous herd.

Mrs. A. M. Sutherland held her post-natal reception in her home on Dennis avenue on Friday afternoon and evening. The charming little white was her wedding dress of white crepe de chine over a lace

skirt, and proved herself a most gracious hostess. The floral decorations were of pink and white carnations and asparagus fern, with huge bowls of crocuses.

Mrs. W. G. Shera and Mrs. Sweetie assisted in the tea, while Mrs. Nellie Aher, sister of the bride, and Miss Lillian Grindley of Edmonton, assisted in the refreshments.

Mrs. Sutherland, Sr., also received a pleasant surprise when she was pleased to welcome her as a future resident in the Fort.

The mother of Mrs. D. N. McLean, is visiting her relatives here.

INNISFREE.

(Special Correspondence of The Bulletin.)
The celebration of Victoria Day in Innisfree, the first in her history, will always constitute a bright page.

It may be said to be the town's first anniversary for just a year ago there was nothing but two log shacks to mark the embryo of this future metropolis of the Vermilion Valley.

In the afternoon the usual athletic games were held and the excellent display of rich viands gave ample evidence that the good Indians are ever ready to share the joys of the human race. The Innisfree Band played in faultless style, many appropriate selections. This was the first appearance of a public function and their performance was universally appreciated. A game of baseball between Innisfree's team and the home boys proved uninteresting to the visitors.

In the evening the Ladies' Auxiliary Society gave a musical concert which for the excellence of talent displayed by the different participants, could not have been surpassed by a more pretentious town.

Thirty miles south of Innisfree, grading is in progress on the G. T. P. Many contractors' outfits are at work between Saskatoon and Viking. The line runs through one of the most picturesque country imaginable for agricultural purposes. The country between Innisfree and the grade is dotted with prosperous horse and cattle ranches, the most conspicuous being those of Davis, Murphy, Askey, Hansen, Powell Traves and McLean. In the credit of these ranches it is said that in spite of the fact that the country is so new, in consequence of last autumn's prairie fire, they brought their large herds of horses and cattle through the winter in good condition without the loss of a single animal.

Spring seeding is nearing completion. All the wheat is in, and the green blades of wheat will undoubtedly prove as great a harvest as heretofore, as they are keeping above the ground. This year's acreage, estimated of this district, will be three times that of last year.

It must be remarked that the raising of horses, cattle and sheep, as they do to grain raising. They are an intelligent class of farmers and know that by judiciously feeding their grain they will realize as it, and double its market value.

J. P. Miller, 4 miles from Innisfree, has the largest ranch in the country. It is situated on the romantic north shore of Birch Lake, the most ideal beauty spot in Alberta and a coming popular summer resort. This ranch contains 6,000 acres almost surrounded by the lake.

CHIMPAN.

(Special to The Bulletin.)
There is to be a monster celebration here on July 4, and extensive preparations are being made for the occasion. Among other features horse racing, running, jumping, football, baseball, etc., will be prominent. Football is fully expected, will be represented. Look out for fallers and momentous later.

The report, that was confirmed, regarding the shipment of 20 carloads of buffalo to Lamont ended a session in our burg last Saturday. The sight of a real live buffalo has not been enjoyed by everyone, not a few of our townsmen took advantage of the opportunity to see and see when being unloaded.

Mr. Lawrence, our teacher, has resigned the school here to take over the Lloydminster school after the summer vacation.

OLDS.

(Special to The Bulletin.)
Due to the inclemency of the weather yesterday, the exhibit at the Olds station and bull show, was very short, although the exhibit was the best. The heavy rain during the previous night discouraged many of the farmers near by, and had they displayed a little more confidence in the day's prospects, when at last the sun did make its appearance, there would have been a larger attendance.

Another thing which is indeed regrettable is the fact that several of the local horsemen for some reason did not exhibit. This is very discouraging to an organization whose function is to encourage breeding of the following were seen prizes awarded: M. D. Jones, exhibitor of the Farm and Ranch exhibit acting as master of judges.

Shire and Clydesdale, Rawlinson & Campbell, Olds; Islet, Thomas Byron, Olds.

Standard bred—1st, B. Bowman Campbell, Olds; 2nd, E. F. Johnson, Verdon, B. C.; 3rd, Wm. Hills, Verdon.

Shire, thoroughbred—1st, W. H. Hammer, Olds; 2nd, J. C. Crave, Olds; 3rd, John Cranston, Olds. Two years and under three—1st, W. H. Hammer, Olds; 2nd, W. H. Hammer, Olds; 3rd, John Cranston, Olds.

The rain came in a great downpour again last night, and while there has been no similar visitation during this forenoon, yet the clouds are thick and promise rain nearly so good as yesterday. This condition naturally makes the men in charge particularly glad. However, the rains will soon be over.

off if we have no more rain today. Following is the program of sports for the grounds:

Free for all trot; best two in three—hotel keeper's purse, \$225.
2:15 trot or pace; best two in three, \$250.
2:30 trot or pace; best two in three, \$150.
Half mile open run; best two in three, \$100.
Five furlong dash, \$100.
Free for all race; \$25 on each quarter, \$100.

Half-mile, young race; 14 1/2 and under, best two in three, \$50.
Half-mile, trotting race for home city farmers only, \$50.

This is the first meeting of the Central Alberta Circuit, and 40 of the best horses in Canada have been booked for the event; as an interesting event is on the tapis if the weather is not too hot.

Since the local races have been withdrawn the visiting horsemen have expressed themselves as being quite willing to remain at Olds until the Red Deer event. Olds still retains her reputation of having the best half-mile track between Regina and Edmonton, and visitors know when they have a good thing, it's Olds first with them as well as many others.

The C.P.R. crossing warfairs still continues, although with rather subdued tone. Several boarding cars are crowded on the scene yesterday, and immediately after noon the workmen began operations which had the appearance of getting ready for another attempt at closing the crossing.

The directors held a special meeting and agreed that they should advise the foreman that the special train attempting to close the crossing would be arrested. With this notice the foreman advised that he was not sent to close the crossing, but to extend a switch over camp. This was taken as the "thin edge of the wedge," so he was further advised that any interference with the crossing would be taken as a trespass, and his men would be arrested if they attempted to extend the crossing until proper authority was forthcoming. As it now stands Olds has several extra constables on the watch night and day, and all citizens are standing in readiness for an alarm from the fire and church bells. Much depends upon the "minute men."

STONEY PLAIN.

(Special Correspondence of The Bulletin.)
During the past week our journey, Mr. Israel Unbach, has had Jacob Miller's traction engine on the road. He has graded Main street, Second and Third avenues. As soon as the sidewalks are built, the improvement of the streets will be greatly improved.

M. McKay and his gang of men are busy putting in poles for the telephone extension from Adam Baron's place to our town. We expect to have telephone connection with Edmonton by the end of the week. The telephone line is now in the hands of the carpenters have almost finished putting the quarter cable, \$400.00; afternoon tea, \$100.00; ice cream booth, \$100.00; cost of supplies, 50c.

FOOT SASKATCHEWAN.
The celebration at the Fort on Victoria Day brought in \$14,620. The items were as follows: Revenue from meals, \$447.70; gate receipts, \$400.00; afternoon tea, \$100.00; ice cream booth, \$100.00; cost of supplies, 50c.

Olto Wolf, our land guide, has started work on his office this week, and expects to be able to move into it in a few days. He has a new house, which he has just started work on. It is a fine house, which he has just started work on.

MISS MOUNT, a popular young woman of the Fort, expects to sail for London, England, during the month of June, where she intends making her home in the future.

"St. George's Baking Powder

is good enough for me."

"What if I can make more profit on a powder that you say is just as good?"

"I have no use for those 'just as good' things. And I will not have 'cheap,' impure baking powder in my store at any price."

"No, sir! People, who deal here, expect me to protect them against doubtful goods. And I am not going to risk losing good customers by selling a Baking Powder that I can't intelligently recommend."

"I know that ST. GEORGE'S is a pure Cream of Tartar Baking Powder, it gives satisfaction and I'll stick to it."

"You are just wasting your time (and mine) trying to sell me anything else."

"Good morning!"

Are you ever at loss as to "what to bake" for breakfast, luncheon, dinner or tea? Our Cook Book tells how to prepare 100 dishes, for every month. Send free if you order National Drug & Chemical Co. Limited, Montreal.

Steeding here is about two-thirds finished. In other countries it would seem proper for the men to be making hay, but some have had to even begin gardening here.

The government ferry at St. Paul Crossing is now running. Mr. Wm. Lively, who has been sick during the winter and not able to meet the note that came due on his wagon, has sold his team and wagon to raise money enough to pay off the notes and will start anew. It seems hard for a man as old and

good as Mr. Lively to meet with such misfortune. This whole country has been burned over, and now the new grass starting causes everything to look much like spring.

Jacob Chappell started fire at his place, and it burned everywhere but where he wanted it to. Mr. Jacob Chappell is adding another store to his barn. Johnny Chappell has gone out to work for the summer.

Mr. Martin and Charles Greenstreet have each bought a new dish.

PRINCE RUPERT

The Pacific Coast Terminus of the Grand Trunk Pacific Railway.

Prices: \$150. \$175. Terms: Half Cash; Balance \$225. \$250. \$300. Water Frontage \$500 months. Interest 6 per cent.

Prince Rupert is destined to be one of the largest Seaport Cities of the world.

Prince Rupert is the coming Gateway of the Pacific. Prince Rupert is 400 miles nearer the Orient than Vancouver or Seattle.

Prince Rupert is 600 miles nearer the Orient than San Francisco. Prince Rupert has the finest natural Deep Water Harbor on the American Continent.

Prince Rupert is the centre of the salmon and halibut industries. Prince Rupert is surrounded by vast stretches of timber, coal and all kinds of mineral.

Prince Rupert has a great natural power making it a manufacturing centre.

Prince Rupert will be the most beautiful city in Canada. Prince Rupert will be the distributing point of Northern British Columbia and all the Yukon.

Prince Rupert is today what Vancouver was twenty years ago. Prince Rupert will be in five years what Vancouver is today from a transcontinental Seaport point of view.

Prince Rupert will be the New York of the Pacific. Vancouver lots which sold at \$75 and \$100 twenty years ago are selling today at \$35,000 and \$100,000.

History repeats itself. We have the exclusive control of all the Prince Rupert property at present on the market here.

Financial and Commercial News

NEW YORK STOCK MARKET.

New York, June 3.—The close of the stock market became weak again today, and the bearish sentiment was not so pronounced as the most conspicuous stocks lower than they were last Monday. The reasons for the weakness were not apparent, beyond the obvious explanation that there was no demand for stocks. Even the bear operators showed no urgent desire to cover their shorts until the final hour of trading. The amounts of stocks sold were not large, but the entire protraction of the buying demand left prices vulnerable to moderate selling pressure. The Pacific railroad stocks and the copper industrial were the weakest features, although the declining tendency was compensatory. The weakness was sufficiently explained by the severe decline in London prices of the metal. The New York metal exchange also marked down the price of the metals. Railroad earnings reports continued improvement in net returns for April, the addition of Pennsylvania to the list with the first increase in net for many months, being regarded as significant because of the representative character of the system. Some disturbance of the southeast was due to heavy demand for gold from Paris, shipments to that point arranged here amounting to \$1,000,000, and at London \$8,000,000. Rates for call loans here retained the slight advance of the latter part of the week.

International markets report a disposition to greater ease. The incoming reports to the controller of the currency of the condition of national banks as of May 22, show a marked strengthening of position for most of the great interests on money centres, compared with call on March 22nd. The feeling regarding the wheat market was less dependent, but the news of the cotton crops caused the weakness of stocks nearer the stock market itself, and there was a revival of many rumors previously heard of financial troubles started off after the wheat slump, but recurring with a yielding price again to the former unprofitable levels. The lack of confirmation of any of the trouble rumors as the day progressed had much to do with inducing the shorts to cover more extensively of late. The substantial recoveries resulting, were well maintained to the last. Bonds were heavy. Total sales, par value, \$1,294,000. United States bonds were unchanged on call.

WHEAT RECEIPTS.

New York, June 3.—Wheat receipts 194,000 bushels, exports 411,110 bushels, sales 3,550,000 bushels, spot following a week and lower start due to big world's shipments, improved weather news, easier cables and heavy northwest receipts. Wheat rallied a cent per bushel today on heavy covering. This was induced by a British snow report, complaints of damages in Kansas and a big decrease in the visible supply. Wheat futures followed, and last prices were 3-8 cent higher.

July 103 3-8 to 104 3-8, closed 104 3-8; Sept. 103 11-16 to 104 7-8, closed 104 3-4; Dec. 104 11-16 to 105, closed 104 11-16.

MONEY MARKET.

New York, June 3.—Money on call, easy; highest 3 per cent; lowest 1 1/2; ruling rate, 1 3/4; last loan, 1 5/4; closing bid, 1 1/2; offered at 2. Time loans dull and steady; sixty days, 2 1/2 per cent; and ninety days 3 3/4 to 4, and six months 4 3/4.

MERCANTILE PAPER.

New York, June 3.—Close, prime commercial paper, 5 to 6 1/2 per cent; sterling exchange firm at 48 7/8 to 49 1/8 for demand and at 48 7/8 to 49 1/8 for sixty day bills. Posted rates 48 1/2 and 48 1/2, commercial bills 48 1/2; bar silver, 47 1/2; Mexican dollars, 52 1/8; government bonds steady; railroad bonds heavy.

SILVER.

New York, June 3.—Bar silver, 41 per ounce; money, 3 to 3 1/2 per cent; discount rate, short bills and three month bills, 3 5/8 per cent.

COPPER DECLINED.

Boston, Mass., June 3.—Copper stocks were heavy and declines were general. North Butte got down to 81 1/4 Trinity to 10 1/4, Calumet and Arizona to 10 1/4, and Copper Range to 78 1/2. Prices closed slightly above the lowest of the day.

"AMALGAMATED" MADE MONEY. New York, June 3.—The net income of the Amalgamated Copper Co. for the year ending April 30, is shown by the annual report today to be \$1,154,600, an increase over the previous year of \$4,000,000. The surplus for the year in payment of dividends was \$2,200,000, an increase of \$1,015,100.

LOOKED UP THE BURGLAR.

Montreal, June 2.—Oscar Berube, 13 years of age, 180 Chatham street appeared before Judge Lafontaine today, charged with breaking into the house of J. B. Mack, 1 Berquam avenue. He pleaded not guilty to the charge and was remanded for enquiry.

Yesterday afternoon Mrs. Mack had been out making a call, and on her return found her parlor and kitchen in a wonderful state of confusion. Ornaments had been taken from their places and the contents of the dresser and cupboards scattered about the floor. Hearing a noise upstairs, she crept up on tiptoe and observed a man in the front room. With great presence of mind she pulled the door of the room shut and turned the key in the lock. Knowing that she had the man safe, unless he broke open the door or jumped out of the window, she hurried to a neighbor's house and telephoned for the police. Captain Baker, of St. J. street, with several constables, responded to the call and took Berube in charge. The prisoner had packed up quite a quantity of valuables, in addition to having a bundle of stuff with him when

SEASON 1907.

TWO IMPORTED STALLIONS FOR SERVICE

(1) Percheron and (1) Thoroughbred.

The above Stallions will stand for service at

Baldwin's Barn 7 LOTS IN BLOCK 84 FACING ON SAUNDERS STREET at the extreme east end of Jasper Avenue.

FIREPROOF WINDOWS.

he entered the house. He at first gave his name as John Brown, and said he had thought the house was his own. Three years ago, on June 10, Berube was sentenced for breaking in to the same house, which at that time was occupied by another tenant.

NEWS BRIEFS.

The fortieth anniversary of the ascent of the Emperor Francis to the Hungarian throne will be celebrated Saturday. The festival will continue two weeks.

King Frederick and Queen Louise of Denmark will pay a visit to King Edward and Queen Alexandra at

Buckingham palace from June 6 to 12. The ceremony of transferring the body of Paul Zola to the Pantheon in Paris will be held this week.

An effort to decide upon a plan which will bring an end to the long continued struggle between the independent companies and the Bell interests will be made at the annual convention of International Independent Telephone Association, to be held in Chicago Tuesday. More than a thousand delegates from all sections of the United States and Canada, representing more than \$200,000,000 capital in independent telephone companies are expected to attend the convention.

THE BEST BUYING IN NORWOOD

7 LOTS IN BLOCK 84 FACING ON SAUNDERS STREET

The City have graded Pine avenue and Saunders St., connecting Government avenue with the Fort trail. All traffic from Fort Saskatchewan, the Packing Plant and points north and east of the city, must pass this property, which will make it valuable for business sites, water and electric lines are needed on these streets this season. Street cars in the near future.

These lots are all high, dry and beautifully situated. Price only \$400; half cash; balance six and twelve months. Remember, only seven lots to be had at this price and for a few days only. If you want to double your money in a few weeks secure one or more of these lots, and do it now. Let us drive you out to view the property.

LOCAL.

Probab: Clear and cool today and Wednesday; local frosts tonight.

A city driver, for running his horse on the street was fined \$5 at Police court Saturday night.

Miss Hazel Anderson of the College is spending a few days with her parents at Wetaskiwin.

Mr. Pierre Charline who had his arm broken was removed to the General Hospital Saturday night.

"To Die at Dawn." Is the title this evening in the Edmonton opera house by the Pringle Stock company.

Nurse Walsh, who is suffering from an attack of influenza, was taken to the General hospital yesterday.

An organ recital will be held in the First Baptist church on Friday, June 7th. The organ has just been installed.

The Hub cigar store is being moved today to their new quarters in the store formerly occupied by the Edmonton News Co.

S. J. Bottomley of Roland street reports that a chest of tools was stolen from his workshop on Saturday night or some time yesterday.

James A. Powell has purchased the property of E. Kirkpatrick on Sixth street east of Hardisty. The price is in the vicinity of \$12,000.

Miss H. Stewart who was operated on at the General Hospital for appendicitis about two weeks ago, has recovered and returned to her home on Saturday.

Work is progressing rapidly on the new warehouse being erected by the Beatty Co. at the corner of Howard and Rice street. A large staff of carpenters are at work.

Saturday and Sunday were very quietly observed in the city and for the first time in some weeks no drums were reported at the Police Court on Monday morning.

M. Kemp who has been spending some time in the Old Country and on the Continent has returned to Edmonton and opened up an architect's office in the Credit Union building.

Mr. John Richardson, of Knox college, passed through the city on his way to Hardisty, where he will spend the summer on the mission field for the Knox College Missionary society.

The fire brigade were called out last evening to 323 Queens avenue. A stove too close to the partition in the house of Wm. Asley, David Calderwood and T. C. Tracy, was the cause. There was no damage.

A leather satchel containing a considerable amount of money was stolen in the Hudson's Bay Store Saturday evening. It was picked up by a party who is known and the manager of the store will pay a reward if the satchel is not returned.

The members of the Edmonton basketball club will meet on the exhibition grounds on Tuesday and Thursday evenings of each week for regular practice, until further notice. All cricketers are particularly requested to turn out.

The Edmonton Lodge No. 22 Knights of Pythias will hold a meeting at the lodge rooms in the Prince Arthur Cafe building this evening as eight o'clock. Important matters are to be discussed, and a good attendance is requested.

Miss Hazel Winn made a great hit in her charming rendering of her song "Teddy Bear." Miss Cecilia Hope was also well received in her illustrated song "When the Harvest Moon is Shining on the River." The views shown were excellent, especially the landscape in Switzerland. The "dog snatcher" is especially funny, especially when the dog buster tries the cop in the last picture of the piece.

"Wheels within wheels" is quite a familiar term but eyes within eyes is something not often heard of. For some days an unusually large goose egg has been on display in Williamson's drug window. Saturday in a moment of inquisitiveness Mr. Williamson broke the outer shell and made a curious discovery in the form of another complete egg shell and all of about the normal size. A thin layer of white separated the two shells. It is up to the egg expert to explain the phenomenon.

Although the fact that Mrs. Fiske (one of America's greatest actresses) will be heard here on the evening of July 2nd is sufficient to make this the most important date in the entertainment history of Edmonton, still the leading men will not enter in her show.

With Mrs. Fiske will be heard John Mason, who ranks as one of the great leading men in this country. To Mr. Fiske and John Mason on the same stage is an opportunity not to be missed, and it is not to be wondered that so much interest is already aroused concerning this coming event.

C. W. Butler has returned from a tour of the C.N.R. and has been looking after some matters in connection with the immigration department. Mr. Butler says all trains to Edmonton are crowded daily and the facilities for handling the immigrants are taxed to the utmost.

The estate of the late John Fiske is being settled. The scrip holders control a good deal of the land and some of the town but there are still plenty of home-sited and good farming sections available especially to the north and west.

An incipient blaze at Wm. Sugarmans store this morning was just discovered in time. It was started from a stove on the second floor and the flames were extinguished by Mr. Bull, a salicman, arrived about seven o'clock when the store had been closed and the flames were down through the ceiling, and in a few moments the store would have been in a blaze. The prompt arrival of the fire department prevented the spread, and very little of the stock was damaged.

Noel Noel & Cornack have removed their law offices to the Credit Union building.

Rev. H. A. Gray has been the honor of Archdeacon of Edmonton conferred on him by Bishop Pinkham.

There has been a phenomenal rise in the Saskatchewan river during the past two days and it is now higher for the first time during the season. A large number of rats of logs are doing with the water being six inches high without a scalded patch in the fields, he said.

The firemen were called out at 6:40 last night for a blaze in a house on Queens avenue, owned by Wesley George and occupied by David Calderwood and T. C. Tracy as tenants.

The blaze had originated from the fire and rapidly gained headway between the lumber merchants, in the city was called into use and one cylinder was sufficient to extinguish it.

Mr. W. H. White, house-inspector, was in the city today. During the hot few days he has seen a wide tract of country and says that the crops east and north are in splendid condition. There is wonderful growth in the soil. He says that by June 15th the crops will be as far ahead this year as in any former and that the plants are fresh and vigorous. The cut worm is not doing any damage this spring.

PERSONAL.

J. W. Bryan, of Morden, Manitoba, is at the Alberts.

J. E. Robinson, of Innesfree, is on a business trip to the city.

Alfred H. Maker, of Port, N.D., arrived in the city yesterday.

R. W. Eason, of the R.N.W.M.P., is in the city today.

W. A. Campbell, the Winnipeg realty dealer, is in the city today.

At 8 o'clock the first section of furniture dealer, is in the city today.

A. Urquhart, of A. Urquhart & Co., the Lacombe merchants, is in the city today.

W. R. Latimer, the Battleford implement dealer, came in on the C.N.R. last night.

Mr. and Mrs. D. W. McLean, of Fort Saskatchewan, are guests at the King Edward today.

Charles R. McLean, of Calgary, is in the city today, representing the Moose Jaw four men in the city today.

W. J. Loggie, the Wetaskiwin legal man, is spending a few days attending the Supreme Court session.

Mrs. N. Asselin and M. Bertrand, of the St. Albert Hotel, St. Albert, were at the Windsor yesterday.

Mr. and Mrs. W. C. Bradburn, of Winnipeg, are spending a few days in the city, guests at the King Edward.

Ram Dene, of Menawissa, was in the city today and reports crops in that district as good as any for years.

H. A. Finch, of Wetaskiwin, came up on last night's C.P.R. Mr. Finch is proprietor of Wetaskiwin's harness and saddlery store.

Edward G. Hall, president of the Alberta Nursery and Seed Company, is in the city today, looking after his business interests.

Mr. J. J. Downing left on last night's C.N.R. train for Minneapolis, where she will reside in future.

Since the death of her husband, Mrs. Downing has been in poor health and expects to be laid up for some time. Her father, Mr. C. Hall, in Minneapolis.

T. S. Simms, of St. John, N.B., is spending a few days in the city. Mr. Simms is the largest manufacturer of brooms and all kinds of brushes in Canada and is travelling through the west looking for a suitable location to establish a branch of his business. He is at the Alberts today.

SENT UP FOR TRIAL.

At 10 o'clock court held the last case against John Clarke, charged with stealing a wagon from John Graham. The case was heard by Judge Went up for trial to the Supreme court.

The case against John Clarke, charged with stealing a wagon from John Graham and instead of returning it sold it to a third party.

BILLIARDS.

The billiard match at the Palm stage star, billiard match last night resulted in a win for Joe Livezey over Ernest Kidd. Kidd committed 125 points in a game of 600, but was never taken out. Kidd never had a look in, and his only run was made by Livezey made seven runs. His best were 20, 24, 19 twice and 16. The match was for the support for the billiard club and Kidd entertained the party at the Alberta cafe after the match.
